Tribal Nations Leading the Way: Existing and Emerging Opportunities for Tribal Control of Federal Programs  
*Room: Cascade 1*

Tribal control over federal programs has proven to be one of the most successful ways to ensure services are tailored to the needs of tribal citizens and build the capacity of tribal governments. Tribal nations must have enhanced opportunities to exercise the option to take over federal programs that serve their communities. Currently, Congress is considering legislation to improve the Department of the Interior Self-Governance program, a tribal-federal negotiated rulemaking committee is working to stand up a Self-Governance program at the Department of Transportation, and the U.S. Department of Agriculture is taking the first steps to implement 2018 Farm Bill provisions that authorized Self-Determination contracting for tribal forest protection and the Food Distribution Program on Indian Reservations. The purpose of this session is to provide tribal leaders an update on improvements and expansions to Self-Determination and Self-Governance programming and ensure tribal nations have the information necessary to decide whether taking control of federal programs makes sense for their communities.

**Moderator:** Jay Spaan, Executive Director, Self-Governance Communication & Education Tribal Consortium  
**Presenters:**  
W. Ron Allen, Chairman, Jamestown S’Klallam Tribe  
Melanie Fourkiller, Senior Policy Analyst, Office of Self-Governance, Choctaw Nation

Thus far during the 116th Congress, there has been at least one marijuana bill introduced in the Senate and four in the House, including H.R. 1416, the Tribal Marijuana Sovereignty Act. This breakout session will discuss the jurisdictional interplay between states and tribes in this area, and provide the relevant legislative updates.

**Moderator:** Arlen Melendez, Chairman, Reno Sparks Indian Colony  
**Presenters:**  
Joshua Clause, Principal, Clause Law  
Representative from the Suquamish Tribe, *invited*
