

## **Taking Climate Action: Protecting Our Peoples, Lands, and Futures**

*Wednesday, October 24, 2018*

*1:30 p.m. – 4:00 p.m.*

*Denver, Colorado*

This session will explore the breadth and depth of climate action efforts across tribal nations, strategic considerations of tribal climate action plan design and implementation, and the central role that data generation and analysis plays in assessing climate change impacts and the effectiveness of climate action plans. It will feature representatives from several tribal nations who are leading on climate action, as well as key voices who will speak to tribal climate action pathways and challenges nationally.

### **AGENDA:**

- |                         |                                                                                                           |
