as they co-host

Reporting Water Quality Data and the Exchange Network

An interactive, hands-on workshop for Tribal data users

September 9 - 10, 2009
USET Office Building
Nashville, TN

Discussion topics and in-depth work will include:

- Data management & mapping tools – live demos!
- Submitting data to EPA – live demo of WQX Web!
- What is the Exchange Network?
 - Technology you need to participate
 - Resources available – free and otherwise
 - Pointers on submitting a FY10 Grant Proposal

HOW MIGHT THIS WORKSHOP BENEFIT YOU?

- Improve data management, which can help:
 - produce more extensive QA/QC, analyses and reports
 - develop water quality standards
 - receive treatment similar to a state
- Use data from areas outside of immediate tribal jurisdiction
- Build internal tribal capacity
- Receive and/or save money
- Improve technology infrastructure
