Comments:

AK-21-014 highlights the discrimination that American Indian and Alaska Native Two Spirit, lesbian, gay, bisexual, transgender, or queer (LGBTQ+) individuals face in healthcare settings. It also showcases the deadly impacts of that discrimination and the importance of trans and gender affirming healthcare for Two Spirit and LGBTQ+ individuals. The resolution calls on NCAI to support trans and gender-Affirming health care for American Indians and Alaska Natives that identify as Two Spirit or LGBTQ+. The resolution also supports advocacy to ensure that healthcare facilities affirm all sexual orientations and gender identities. This resolution is consistent with NCAI Resolution #MSP-15-047, Standing in Support of our Two Spirit Relatives in our Communities and Nations and builds upon the previous resolution’s provisions.

The Resolutions Committee recommends a shorter title. In addition, “gender affirming” is suggested to replace “transgender affirming” as to be more inclusive of all identities.

Recommendations:

The resolution is national in scope and considered emergency in nature due to the public health emergency that just occurred and is still impacting tribal communities. Therefore, the Resolutions Committee recommends that this Resolution be considered by the Human Resources Committee, Health Subcommittee.
