from 1:00 PM- 5:00 PM  
(Sunrise Room)*

### **AWR-310 Natural Disaster Awareness for Community Leaders (4 hours)**

This no cost course will help community leaders from many Tribal Nations to enhance understanding of natural disasters, risk assessment in the context of disaster management, prevailing emergency management procedures and operations, and the different vulnerability factors that exist within their local community. This course will also provide Tribal Nations' community leaders with an understanding of the necessary plans and tools needed in planning for natural disasters, like tornadoes, severe winter weather, hurricanes, volcanic eruptions and tsunami, and will help them to better understand and identify the personnel best equipped to address response and recovery requirements in the case of an actual disaster.
